

# Cell Cycle Foldable Directions

Due Date \_\_\_\_\_

Use this sheet as a check list to make sure you have include all the required information on your foldable.

## Folding Directions:

1. Fold each of your two panels of paper in half.
2. Fold each end of your panels back, creating 4 rectangles on each panel (like an accordion).
3. Overlap one rectangle from each panel and glue them together. There will be a total of 7 rectangles after you do this.

*Each rectangle will illustrate and describe one stage of the cell cycle. Use your notes on Ch.4-3 Cell Division and p.132-133 of your textbook as a reference to complete this project.*

## Project Directions:

All rectangles should contain a title, illustration, and detailed description of that stage of the cell cycle.

1. The Cell Cycle
2. Stage 1 Interphase
3. Stage 2a Mitosis: Prophase
4. Stage 2b Mitosis: Metaphase
5. Stage 2c Mitosis: Anaphase
6. Stage 2d Mitosis: Telophase
7. Stage 3 Cytokinesis

*Illustrations must be colored neatly and labeled with straight lines (use a ruler). Folds must be neat, and writing must be legible (type, if necessary). No Pencil. Grading Rubric should be turned in with your project.*
